

REMARKS

Paragraph 2 of the Examiner's Amendment that was enclosed with the Notice of Allowability contained a requirement that Fig. 2 of the drawing be amended to show that the barrier disc 20 is not attached to the underside of the top ("closure element 12") in the Fig. 2 illustration of the invention. Fig. 2 has been amended, in the enclosed Replacement Sheet, to illustrate the required relationship between the disc 20 and the closure element 12, and this has been done without adding impermissible new matter to the application.

Accordingly, entry of the enclosed Replacement Sheet for its originally-filed counterpart, withdrawal of the requirement for further amendments to the drawings, and continuation of the allowed status of this application are respectfully requested.

Respectfully submitted,

EMCH, SCHAFFER, SCHAUB
& PORCELLO CO., L.P.A.
